

## Horse Mask instructions

1. Print out and colour in the horse mask and glue onto a paper plate or some cardboard. The back of a cereal box is ideal.
2. Cut out the eyes. You may want to ask an adult to help with this part.
3. To make a handle, tape a pop stick or chopstick to the back so half hangs over the edge at the bottom.

Can you walk, trot, canter and gallop like a horse? Can you give your toys a ride at the same time?
